

Remarks/Arguments:

The above application was filed without the inventor Declaration and without an assignment. Those items were filed on November 5, 2003 in response to a Notice to File Missing Parts. The November Declaration and Assignment listed two inventors, Peter Dam Neilsen and Christian Kraft, as the inventive entity. It is now discovered that a third individual, Patrick Frey, is an inventor to the invention as claimed in the pending application. Applicant hereby amends the application to add Patrick Frey as a third inventor as provided under 37 C.F.R. § 1.48(a) and M.P.E.P. § 201.03.

In support of this amendment, attached are five items:

1. Statement of Lack of Deceptive Intention;
2. Inventor's Oath/Declaration;
3. Processing fee and assignment recordation fee;
4. Written Consent of Assignee; and
5. Assignment with Recordation Cover Sheet.

The first four of these items are as required under M.P.E.P. § 201.03. Specifically, the attached Statement of Lack of Deceptive Intention is signed by inventor Frey, the added inventor. The attached Inventor's Oath/Declaration is signed by each of the three true inventors. The attached Consent of Assignee specifically states the signatory's authority to act on behalf of the assignee corporation. While not required under M.P.E.P. § 201.03, a new assignment with recordation cover sheet is included to ensure assignment by all inventors, even though a previous assignment from two of the inventors has been submitted to the PTO. A draft in the amount of \$170 is included for the change of inventorship processing fee [\$130; 37 C.F.R. § 1.17(i)] and for the assignment recordation fee [\$40; 37 C.F.R. § 1.21(h)]. The undersigned is available to clarify any outstanding matters in this application. Examination on the merits is respectfully requested.

Respectfully submitted:
